

HEMISPHERE

Discover HEMISPHERE - the largest sailing catamaran in the world! Perfectly set up for luxury diving and fishing expeditions, this eye-catching catamaran blends sport with the full superyacht lifestyle.

HEMISPHERE is designed for outdoor living with acres of wide, open deck spaces. Her twin hulls provide a very stable sailing platform, making her ideal for family charters. The beautifully equipped flybridge features a large jacuzzi, sun pads and shaded dining area, and guests can also relax on the catamaran's expansive trampoline.

Accommodation is provided for up to 12 guests, with two identical master suites on the main deck which can be merged to form one huge suite with access to the trampolines and a small seating area. A further two double cabins, and an additional twin suite with two pullmans are all outfitted in five-star Polynesian style.

The best equipped dive base on the water, HEMISPHERE was built for exploring the life aquatic. Her crew includes PADI certified dive instructors, and a dive centre is located within one of the catamaran hulls, housing diving gear (including Nitrox air) for up to 12 guests. A PADI certified dive training facility, guests can learn to dive for the first time and gain their PADI qualifications on board with online theoretical training and diving lessons.

For those preferring to stay above the surface, the yacht has an impressive array of tenders and toys, including the 16.4m custom sports fishing boat for large game fishing expeditions. Large fish such as marlin or sailfish are tagged and released, but if your catch is smaller, HEMISPHERE's widely-renowned chef can prepare a delicious meal.
